

Tripod Portable Projection Screen

Screen Size: 96" width by 96" height

Max 1:1 size of 96" width by 96" height

Max 4:3 size of 96" width by 72" height

Max 16:9 size of 96" width by 54" height

Best when used with medium or high output projectors (2000+ lumens), high contrast (2000:1+), and a light controlled room

This is one of the largest indoor portable screens available

The screen can be adjusted to 1:1, 4:3, or 16:9 by just pulling up the height of screen you require.

Most Multimedia projectors are 4:3 (1024x768)
