PARTY & TENT RENTALS

Margaritaville Blender Instructions

1. Place the unit on a clean dry flat surface.

2. Place the Ice Reservoir on the unit front first, then push down firmly on back. Reservoir must click into place.

3. Remove the Cord Storage Door by pushing down on the release tab located on the Cord Storage Door. Remove the power cord and plug the unit into a standard 120 Volt wall socket. Replace the cord storage door and position the power cord in the slot below the cord storage release tab.

4. Remove the Ice Reservoir Lid using the Release Button located on the top of the Ice Reservoir. Fill the Ice Reservoir with ice cubes. Replace the Ice Reservoir Lid and snap closed.

5. Lift and remove the Glass Blending Jar. The Ice Chute is spring-loaded and can be pushed up. Remove Blending Jar Lid.

6. Add appropriate amount of liquid ingredients to the Blending Jar for the number of drinks being made (1, 2 or 3). See chart below:

	Amount (per 12-oz. drink)		
Ingredients	1 drink fl.oz.	2 drinks fl.oz.	3 drinks fl.oz.
Tequila	1	2	3
Triple Sec	1/4	1/2	3/4
Lime Juice	1/2	1	1-1/2
Orange Juice	1/2	1	1-1/2
Margarita Mix	1	2	3
Total Volume	3-1/4	6-1/2	9-3/4

7. Replace Blending Jar Lid and return Glass Blending Jar to Blending Base by pushing up on the Ice Chute with the Glass Blending Jar and then placing it on the Blending Base.

8. Set the Number of Drinks Rotary Switch to correspond to the number of drinks being made. Rotate the ON/OFF Rotary Switch on the Control Panel to the ON position.

9. Start the automatic shave and blend cycle by pushing up on the Shave 'n Blend™ Toggle Switch. The unit will shave ice for the appropriate time (based on the Number of Drinks Rotary Switch setting). The blender will start automatically. The unit will stop at the completion of the cycle.
